

FOR EARLY CHILDHOOD EDUCATION

Christina Wilson

Assistant Teacher

The Malvern School of Erial

Since 2004

What is the proudest moment of your time at The Malvern School?

It makes me very proud when I see former students and families that attended Malvern outside of school. Especially if they are now grown and still get excited to see me. That makes me proud because that tells me how close of a family we are at The Malvern School.

What do you like most about our program or what do you think sets us apart?

I like the closeness between the teachers and our Malvern families. The parents have a great line of communication with the teachers about their children throughout the day. It helps create a loving and caring environment for each child to learn in. I like that we all feel like family.

What do you enjoy in your free time?

I enjoy spending time with my family and reading. We like to go camping and to the beach in the summer.

Any unique or fun facts about yourself?

I actually started working for Malvern in 2001 but left for a short period of 8 months in 2003. Ever since I returned I have loved working at The Malvern School. My daughter started at 3 years old at Malvern and is now 19 years old working at Malvern!

What is your favorite children's book?

A Child's Garden of Verses by Robert Louis Stevenson
